

# APFUS 2024

February 22-24, 2024 | #337, Central administration building, Yonsei University, Seoul, Korea

## **Dr Benjamin Jonker**

St Vincent's Hospital Sydney, AUSTRALIA

---

Dr Jonker is an Australian neurosurgeon who specializes in stereotactic and functional neurosurgery (as well as brain and pituitary tumours). He is a board member of the WSSFN and has a broad stereotactic practice encompassing DBS, trigeminal neuralgia and hemifacial spasm, SEEG and epilepsy surgery and gamma knife radiosurgery.

With his team at St Vincent's Hospital he established the first MRgFUS program in the Southern Hemisphere in 2018 and has performed over 150 FUS thalamotomies for tremor. He is currently undertaking a focal dystonia trial with MRgFUS.
